Dear Students,

As you know our Hon'ble Prime Minister, Shri Narendra Modi Ji's November 8 announcement was aimed at eliminating black money and corruption, apart from dealing with the counterfeit currency industry. It has also incubated opportunity for the digital economy.

Apart from turning out to be the biggest economic reform in independent India, this revolutionary measure is making it incumbent upon everyone to embrace and promote digital platforms for money transactions. Necessity is the mother of invention, to use a clichéd adage. Herein lies the importance of the crucial and game-changing role the youth and other digitally literate people can play in educating the unlettered and semi-literate men and women in the use of mobiles and digital platforms for money transactions.

I appeal you to actively support cashless transactions and be a catalyst in making India "Digital Economy". At the same time youth should work on envisaging technology and tools for this mission.

At the same time Government flagships programs like; Make in India, Skill India, Digital India, Smart City Mission, Swachh Bharat Abhiyan and others is destined to utilize potential of youth and without their contribution cannot be a success.

Jai Hind.

M. Sinha.
