

**Prof. B.R. Srinivasan invited to be on the Editorial Board of
Materials Research Innovations**

Dr. B.R. Srinivasan, Professor in the Department of Chemistry of Goa University received an invitation to be on the Editorial Board of a journal 'Materials Research Innovations' published by Taylor and Francis, one of the prestigious publisher in the fields of Sciences and monitored by agencies like Web of Knowledge and Scopus.

The journal covers all areas of materials research with a particular interest in synthesis, processing, and properties from the nanoscale to the microscale to the bulk. Coverage includes all classes of material – ceramics, metals, and polymers; semiconductors and other functional materials; organic and inorganic materials – alone or in combination as composites.

Prof. Srinivasan is one of the productive authors from Goa University. [Visit his page to know more about him.](#)

Congratulations to Prof. Srinivasan!
