

SCS- Events: WEBINAR on “Mending Academic Talent for Industrial Applications”

GOA UNIVERSITY
SCHOOL OF CHEMICAL SCIENCES
on the occasion of **National Science Day**
Azadi Ka Amrit Mahotsav

Welcomes you for the webinar
On 28th February 2022 at 9.00 am
‘Mending Academic Talent for Industrial Applications’
The Resource Speakers of the event

Dr. Kamlesh Pai Fondekar
Head Research & Development
Godrej Agrovet Limited
Mumbai-India

Dr. Sitaram Pal
Senior Group Leader
Process Research
Syngenta Biosciences Private Limited
Goa-India

The objective of this webinar is to strengthen the academic and industrial collaboration thereby creating awareness among students about the industrial realm. The talk will focus on bridging the gap between academia and industry. It will also highlight on current needs of Industries and the scope of mending academic skills and talents with reference to Industrial applications

Prof. V. M. S. Verenkar
(Dean)

Prof. R. N. Shirsat
(Vice-dean, Academic)

Prof. S. N. Dhuri
(Vice-dean, Research)

Convener: Dr. K. T. Dhavskar
Co-convener: Dr. S. A. Kundaikar & Dr. P. S. Volvoikar
Organizing Team: Dr. R. E. Patre, Dr. D. G. Porob, Dr. H. K. Kadam, Mr. V. R. Chari

The School of Chemical Sciences, Goa-University (SCS-GU) organised a webinar entitled “Mending Academic Talent for Industrial Applications” on Monday, the 28th February 2022 at 9.00 am to celebrate National Science Day! The event was in line with the Azadi Ka Amrit Mahotsav and was open to all the Academic Institutions across the country. The Analytical Faculties of SCS initiated and coordinated the event keeping in line with the theme of the National Science Day of the year 2022 “*Integrated approach in Science and Technology for sustainable future*”.

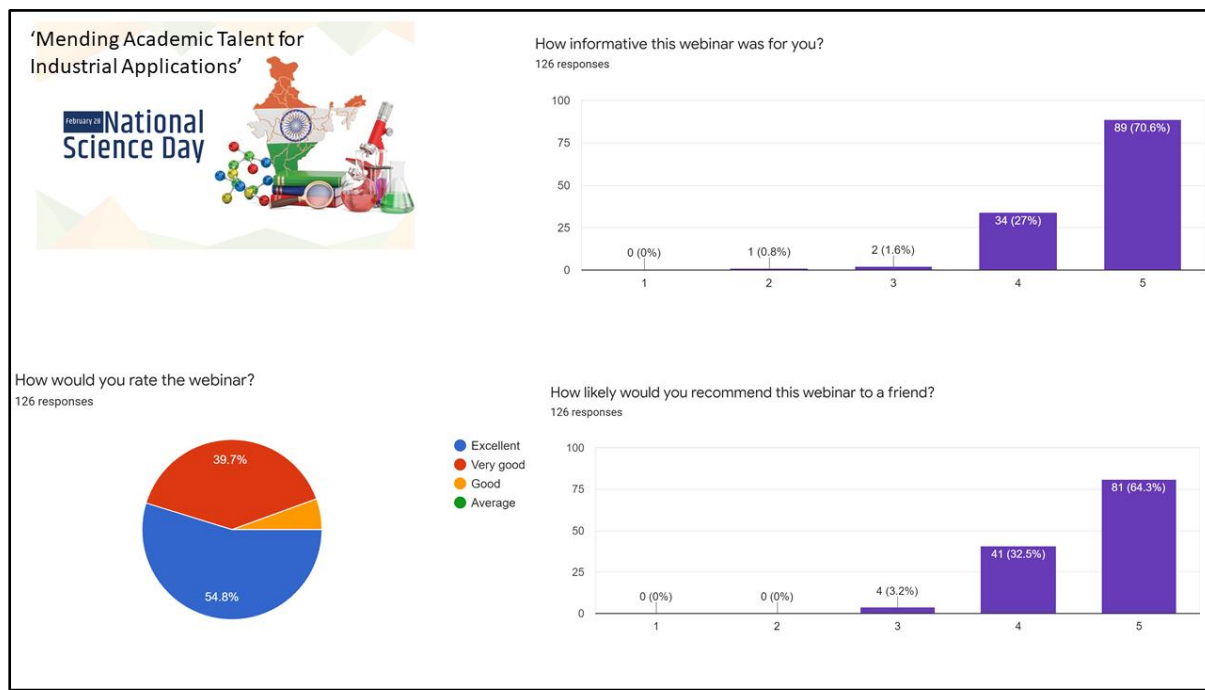

This event was conveyed by Dr. K. T. Dhavskar and co-conveyed by Dr. S. A. Kundaikar and Dr. P. S. Volvoikar while Mr. Vishnu Chari helped in the technical coordination of the event. The Dean of SCS, **Prof. V. M. S. Verenkar** graced the occasion by highlighting the significance of National Science Day and the core objective of the webinar. The event was organised with the aim of strengthening academic and industrial collaboration by bridging the

gap between world of academia and industry. To highlight the current needs of Industries and the scope of mending academic skills and talents with reference to Industrial applications the School of Chemical Sciences invited two eminent resource person from Industrial realm **Dr. Kamlesh Pai Fondekar** head of Research and Development, from Godrej Agrovet limited and **Dr. Sitaram Pal**, Senior group leader-Research process of Syngenta Biosciences Limited . Their vast experience and expertise in Industrial Sector helped create awareness about the working environment that exist in Industry and highlighted growth opportunities and scope of mending Academic talents for integrated collaboration and research in today’s scenario. PowerPoint slides showcasing Instrumentation facilities at SCS-GU were presented by the convenor Dr. K. T. Dhavskar during webinar.

This webinar witnessed participation from different institutions across Goa which included students, faculty and research fraternity from Goa University, Parvatibai Chowgule College, St. Xavier’s College, PES College, Carmel College, Dhempe College, Khandola College and St. Joseph Vaz College. Besides the colleges the participation was also observed from Higher Secondary Schools , namely Holy Cross High School Siolim Goa and Deepvihar higher

secondary school Headland Sada Vasco Goa. The event has been attended by participants from other state as well which included Siliguri Institute Of Technology (West Bengal) and Shri Angarsiddha shikshan Prasarak Mandal's ASPM College of Pharmacy (Sangulwad-Maharastra).

Talk was followed by an active discussion on the topic wherein the speakers cleared various queries and doubts asked by all participants. The feedback received for the webinar was very good as revealed by the data obtained from Google feedback forms. Overall the webinar provided insightful information on mending academic talent for industrial applications!
