2nd May, 2022

Dear Students,

Greetings from Deccan!

We are writing to express interest in recruiting M.Sc. – Organic & Analytical, final year students from Goa University.

A brief about the company:

Deccan Fine Chemicals has rich experience in servicing large scale custom manufacturing needs of global customers in agrochemicals, pharmaceuticals, and specialty chemicals. Deccan's business growth has been based on high quality, sustainable and safe production capability, affordable prices and proven track record of completing new projects on time. Deccan has high quality manufacturing assets which can be used for a broad range of fine chemical applications and has extensive fast track new product introduction, project design and delivery experience.

The roles on offer are:

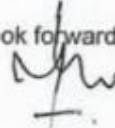

Process Chemist
Process Analyst

Both the above mentioned roles would be based at our manufacturing site in Goa.

Remuneration: CTC 4 lakhs p.a.

Interview Schedule: 18th May, 2022, 10:00 AM onwards at Goa University campus

Look forward to meeting you'll and hiring promising talent!

Yogesh Arora
Head – HR, Admn & CSR
