

Placement Opportunities for M.Sc. Chemistry Students at Syngenta Biosciences Pvt Ltd, Corlim, Ilhas Goa

Syngenta is one of the leading agriculture companies in the world, headquartered in Switzerland with 28,000 employees, in more than 90 countries. Syngenta expands its R&D capabilities in Goa with a new State of Art Research Facility named **Syngenta Biosciences Pvt. Ltd** in the year 2004 recognizing the innovation potential in the country to meet the domestic market demand. The company has different departments starting from synthesizing new active ingredient to the development of cost effective route and scale up. They have openings for M.Sc students of Chemistry, Goa to work in research and development. The campus interview held on 19-05-2022 at school of chemical sciences.

Before interview, school of chemical sciences organized interactive sessions of the students with management of Syngenta Biosciences Pvt. Ltd chaired by Director, Dr. Bhanu Manjunath. The objective of session was to make students aware about the requirements, expectation, skill required to join the Industries. The session was very interactive, a lot of queries from students about the Industries, work culture, career growth etc.

The interview was started with the corporate presentation from the management of Syngenta Biosciences Pvt. Ltd. They discussed about their mission, vision, careers, etc. Students of all disciplines (Analytical/Inorganic/Physical/Organic chemistry) have undergone different round of interviews, written exam followed by technical interviews of shortlisted students. Two students were indentified to work in their esteemed organization. There was also a discussion with Dean (SCS) and Syngenta management to discuss academic-industry collaboration for better prospect of the students.
