The objective/description of the activity	As part of their course requirement Computer Science students and faculty members of Sullamussalam Science College, Areekode, Kerala visited Goa University, in particular Computer Science and Technology Discipline of Goa Business School on 31st January 2013. Their objective was to get exposure and knowledge towards various academic and research activities being carried out at CST, Goa University as part of their Industrial visit. The Computer Science and Technology discipline of Goa Business School of Goa University hosted these students and faculty members and gave an overview of the University and the programs being carried out at CST. Faculty members and students of MCA also gave an overview about internships, placement activities and various projects being done as part of MCA program at Goa University. This was followed by their visit to the Natural Language Processing (NLP) of CST, GBS located in the basement of Library Building of Goa University. The research group of NLP briefed them about NLP projects being carried out at the

	research center. They also gave an overview of the Vidhyapati project being done at Goa University for Konkani language.
Benefit/Key outcome of the event	The major benefits of their Industrial visit to our University are: • Exposure to programs, facilities and campus of Goa University. • Exposure to the MCA and MScI program of Computer Science and Technology discipline of Goa University • Exposure to the research and development work being carried out by the CST dicipline
