

Report on Motivational talk for Students by Dr. Manoj P. Samant
Organized by Seminar Committee of School of Chemical Sciences
Goa University

Activity Report

Title of the Event : Motivational talk for Students
Date and Time : 20-07-2023 and 03:30 PM
Mode of conduct : Offline
School/ Directorate/ Section : School of Chemical Sciences, Goa University
Collaborating Agency : -
Detail of the Resource Person : Dr. Manoj P. Samant, PhD
Senior Medical Director,
Ribon Therapeutics, USA
Number of Faculty attended : 16
Number of Student attended : 116
No. of external participants : 0
The objective : To motivate M.Sc. and Ph.D. students
Description of the activity : Refer Page 2
Benefit/Key outcome of the event : Refer Page 2
Enclosure : Brochure (Page 3), photographs (page 3 & 4)
and Attendance (Page 5 to 9)

Dr. Kedar U. Narvekar
Convener

Dr. Anjani P. Nagvekar
Chairperson
SCS Events Committee

Dr. Bidhan A. Shinkre
Vice-Dean
(Research), SCS

Prof. Vidhydatta M. Shet Verenkar
Dean, SCS

Description of the activity

The Seminar Committee of School of Chemical Sciences – Goa University organized a seminar on 20th July 2023 at 03:30 PM in Chemistry Auditorium, School of Chemical Sciences Goa University on the topic “Motivational Talk for Students”. Dr. Kedar U. Narvekar, Convener of the event welcome the speaker and others present. Dr. Bidhan A. Shinkre Vice-Dean (Research), SCS introduced the speaker. Dr. Manoj P. Samant, Senior Medical Director from Ribon Therapeutics, USA delivered the talk. The Speaker being Alumnus of School of Chemical Sciences (erstwhile Department of Chemistry) – Goa University begin his talk with his MSc days at Department of Chemistry, as to how he got into MSc, how he was enlighten by the faculty members and what plans he had after his masters. Further, he mentioned about his PhD institute, the group in which he worked and the work carried out by him during PhD. Later he stated about his postdoctoral work. He further added some glimpses of the work carried out at the place where he is presently working. Briefly speaking about it, he explained about the peptide synthesis-modifications and their applications in diabetic and cancer patients. He also stated about successful application of their products in organ transplantation. Students and faculties interacted with the speaker and asked their question. The speaker gave satisfactory explanation. Overall, it was a prolific interactive session. The seminar ended with vote of thanks to the speaker by the convener.

Benefit/Key outcome of the event

Students got to know about future opportunities with respect to research and job prospect, and are able to plan accordingly. Students realized about the importance and requirement of knowledge acquired at masters level for application in industries for a better future. Other than academia, they realized that there is a good scope in making a carrier in an industry / company. Students and faculties had a good interaction during the talk. Students could have a glimpse in depth of the recent advancement in research making them realize the need of the hour. As per New Education Policy 2020, students have a research component of one full semester duration. This talk will encourage students to participate in research projects, bringing in them a motivation to take up a research topic to give a fruitful research output. Overall the achievements of the speaker was itself a great motivation for the students to shape their future.
