Hi! So I'm sharing here one of the queries received.
Q: Does one need to study all the films provided year wise?
Ans: Note the most important ones... usually the ones that are considered to be 'classic', have won awards, adaptations of literary works, produced/directed/acted by someone famous or films that were in the news.

Natasha Maria Gomes 6 Feb
I do understand that these will be A LOT! So **one strategy**, that I use to remember the films and/elements related to it ... is **watch the trailers or the entire film**. I also **watch short interviews with the actors/directors** ... that way I generally can remember the story/backstory related to the film... and this for me is better than simply mugging up names of films and dates.

Divya Pinto 6 Feb
This is a really good strategy ! And trailers are available on YouTube for almost any film.

What aspects of the quiz sessions did you find most beneficial in enhancing your understanding and performance in NET in French ?

The topics, types of questions, difficulty level of questions

Through the quiz sessions, i got a chance to practice on a weekly basis for the NET exam. The quizzes offered us with detailed questions on well- known movies and French linguistics. This way, I was able to gain knowledge and revise these topics. Thank you for providing the additional resources as it is beneficial for our preparation.

The diversity of the content

The quiz on movies

in depth quiz questions

I liked the fact that we could give feedback on the difficulty level of each quiz. For me, the most useful were the ones on didactics and language use (because these are my weak points) but there were many other questions on cinéma that taught me to look at the important aspects of a film (like the colloquial terms in Bienvenue chez les Ch'tis).

Relevance, high similarity to NET questions.
