The objectives/description of the activity (50 words)	Immersing in tech's diverse impact - from science education to rural development, IT solutions, and future-ready skills, the DCST study tour ignited a passion for harnessing technology's power to bridge divides and shape a brighter future. During this tour, the students of MCA, along with MSc-Integrated-Data Science accompanied by CST faculty members had visited various organisations in Hyderabad, viz., B.M. Birla Science Museum, National Remote Sensing Center, ISRO, National Institute of Rural Development, Zapcom, Hyderabad office, IIIT Hyderabad. Students gained knowledge and exposure to the various aspects, like the use of modern technologies in agriculture and farming, the workings of remote sensing procedures in ISRO, latest research and development in the field of CST and allied areas in IIIT Hyderabad, Software development procedures at Zapcom Pvt. Ltd. Overall, students gained insightful experience and the glimpse of use and application in real word scenarios of whatever they have learnt in classroom. This was an overwhelming experience for students as well as accompanying faculty members to explore the new city and the IT, R&D, and ITES infrastructure of Hyderabad city.
