<b>10. The objectives of the Program/activity/event</b>	<p>The main objective of the event was to celebrate the spirit of the Francophonie month. This year the event will be based on the words taken from 2026 edition of "Dis-moi, dix mots". This edition invites the students to imagine the world to come and to reflect on the transformations shaping our future. Social changes, technological progress, new ways of living together and emerging challenges all call for new words and new perspectives. Language plays a key role in helping us envision these possible futures, express hopes and concerns, and better understand the world we are building. The purpose of the contest is to invite the students</p>

	to play and express themselves and give free rein to their creativity with ten words in a literary or artistic form.
<b>11. Description of the Program/activity/event</b>	<b>Discipline of French and Francophone Studies, Goa University,</b>
<b>12. Benefit/Key outcomes of the Program/activity/event</b>	The event aligns with NAAC Criterion 7 (Institutional Values and Best Practices), particularly in promoting inclusivity, cultural diversity, and value-based education through the celebration of linguistic plurality and intercultural dialogue. By encouraging creative engagement with the French language across educational levels and geographical regions, the event fosters national integration, digital outreach, and participatory learning practices. The online format further supports environmental sustainability by reducing resource consumption, in keeping with eco-conscious institutional practices.

## *Ce que l'univers attend*

Sous le froid infini du silence sidéral,  
Nos cœurs battent pourtant d'une vive anticipation ;  
Chaque rêve s'égare, fragile particule,  
Dans la lente respiration d'un grand continuum.

L'homme lève les yeux, obstiné à alunir,  
Comme pour retrouver un espoir dans la nuit ;  
Un frère humanoïde apprendrait à sourire  
Quand nos mains vont programmer les matins de la vie.

Mais parfois grandit l'ombre d'un monde dystopique,  
Où la science oublie la chaleur des chemins  
Et change l'univers en simple théorie.

Pourtant l'espoir secret peut transmuter la nuit ;  
Car même au bord du ciel le plus vaste et muet,  
Un cœur humain suffit pour apprendre aux étoiles.

L'étoile filante.

Elle passait ses jours dans un monde **dystopique** qui la fatiguait.  
Chaque jour, elle regardait la Terre comme un lieu étranger.  
En elle, un désir prenait forme, l'envie de partir.  
Partir devenait une idée qui ne la quittait plus.

Elle ne supportait plus cette vie trop **humanoïde**.  
Ses relations perdaient leur chaleur, devenant **sidérales**.  
Elle avait le sentiment d'être une **particule** oubliée.  
Perdue dans un **continuum** sans début ni fin.

Alors, elle a décidé de se **transmuter**.  
De laisser derrière elle ce monde qui l'étouffait.  
Son corps s'est transformé en lumière vive.  
Et en un instant, elle s'est **alunie**.

Depuis, elle glisse dans le ciel comme une étoile filante.  
Et nous levons les yeux, pleins d'**anticipation**, pour faire un vœu.
