PREFACE

It is a great pleasure for me to present the fifth Report of Goa University for the academic year 1989 - 90 the first after my assumption of office as Vice-Chancellor, Goa University on October 30, 1990.

During the short period of five years the fledgeling Goa University has taken shape though it is still in the developing stage. Considerable infrastructure on the beautiful campus of the University at Taleigao Plateau has come into existence but is still to be reinforced in many ways. Some new Departments which are planned are yet to be established. However, we do hope that the continued progress of Goa University will make it one of the best centres of higher learning in the country. Goa has a unique place in India and the Goa University can also have a place of its own in the realm of higher learning in the country.

The year 1989-90 to which this Annual Report pertains saw many important developments. These include reconstitution of the various Bodies of the University like the Executive Council, the Academic Council, the Court, the Planning Board and the Finance committee, the development of the Academic Staff College and the Centre for Women's Studies. Some preliminary work has also been done in planning a new course of M.Sc. in electronics. The year also saw the implementation of the restructuring of Post-graduate courses. During the year two new colleges were set-up, one at Quepe and the other at Khandola.

As I have stated above, the University has many miles to go. Our goals and objectives are clear and with the all-round cooperation of the Faculty and administrative staff alike as well as various Bodies of the University we hope to make steady progress in the years to come.

I would like to place on record my deepest sense of gratitude to the Visitor for his valuable guidance, to the Government of Goa for its Munificent grants, to the University Grants Commission and the Central Ministries concerned for the help and assistance in respect of funds extended to this University, to the members of the Executive Council, the Academic Council, the Court, the Planning Board and to the several Boards of Studies for their sincere support and full co-operation at every stage in implementation of the various academic, administrative and other activities undertaken by the University. I feel especially grateful to our Faculty, which is the backbone of any University system, for its dedicated efforts to raise the level of our University. In equal measure I appreciate the positive response in all sectors of learning we have had from our student community, for whose future we all labour. Finally, I am thankful to each and every member of the administrative staff for his or her unstinted support at all times for they have worked like honey bees in their fruitful endeavour.

VICE-CHANCELLOR

CHAPTER I

INTRODUCTION

The Vice-Chancellor, on behalf of the Executive Council, has great pleasure in presenting to the Annual Report of the University for the year 1989-90 as required under section 26 of the Goa University Act, 1984.

General

Established on 1st June, 1985 as a teaching institution for higher education, the Goa University completed the fifth year of its existence. This University had inherited from Bombay University a solid structure of education which had been built brick by brick over twenty years, since the days of liberation, pertaining to every faculty, whether Arts, Science, Commerce, Law, Education, Engineering, Medicine. Due emphasis had been given to technical and professional education, with the result that the State could boast of having a Dental College, a Pharmacy College, an Engineering College, a Medical College, a College of Fine Art, a College of Education, two Law Colleges, four colleges exclusively in Commerce, five colleges of Arts & Science and one college exclusively for Women. Upon this structure of under-graduate courses was based the Centre of Post-graduate instruction and Research (CPIR) with quite a few Departments relevant to the needs of the society. The CPIR, which made arrangements for post-graduate teaching and instruction in 13 subjects, formed the nucleus for the University.

The University has by now been fully established. It conducted its first public examinations in 1986-87 for the students who were admitted to the first year during the year 1986-87. The term of the first University authorities appointed by the Visitor in exercise of powers vested in him under the Goa University Act expired between June and August 1988 and all the authorities have since been reconstituted in accordance with the provisions of the Act and Statutes. So we have now the re-constituted Executive Council, Academic Council, Court, Planning Board, Finance Committee, etc.

The Goa University was very fortunate to have a personality of the stature of Dr. Gopal Singh as its Visitor. Unfortunately, with his sad demise on 8th August, 1990 the university has lost not only his valuable guidance in its academic matters but also a personality of outstanding calibre.

Faculties and Academic Programmes :

a) Till 1988-89 the following teaching departments were functioning in the University: Hindi, Konkani, Marathi, English, French, Portuguese, Economics, History, Political science, Sociology, Philosophy, Mathematics, Physics, Chemistry, Microbiology, Marine Science, Geology, Commerce, Computer Science & Technology, Marine Biotechnology & Management studies.

b) This University is one of the 55 Universities in the country selected by the University Grants Commission for the setting up of an Academic Staff College which started functioning early in 1989. The jurisdiction of this Staff College extends not only to the area of this University, but also to that of Shivaji University and four districts under the University of Bombay.

c) A centre for Latin American studies sanctioned by the University Grants Commission, has started functioning. To begin with, courses in History and Political science of the Latin American countries have been offered at the M.A. level. Similarly, a centre for Women's Studies, sanctioned by the University Grants Commission has also started functioning in the Department of Sociology.

d) Two new Colleges were started in the year 1989-90. These are one at Quepem and the other at Khandola. Set up by the Government of Goa, these Colleges cater to the need of undergraduate education in Arts, science and commerce. The Home science college for women which was originally started

years ago by the All India Women's conference (Goa Branch) but had to be disaffiliated because of certain important reasons, was restarted by the Government of Goa from the current academic year.

e) The University plans to set up in the near future a Department of Ecology and Environmental Sciences. Recently, the University Grants Commission has called upon this University to put up a proposal for starting a course of study leading to the degree of M. Sc. in Electronics. The University Grants Commission has shown willingness to provide financial assistance, if the University agrees to start such course. This matter is being examined in detail.

f) An important development in the academic field is the restructuring of the courses leading to post-graduate degrees in Arts, Science and Commerce. A Committee is also working for similar restructuring of the under-graduate courses in Arts, Science and Commerce and the restructured courses are likely to be implemented from the academic year 1991-92.

g) The University held a series of seminars and conferences bearing on the history and culture of Goa and brought out a few publications such as "Goa Wins freedom". "Goan Society through the Ages" "Goa: Cultural Trends" "Essays in Goan History" & "Indian and Mozambique."

III. Construction Programme

The construction activity of the University's new campus on the Bambolim-Taleigao Plateau is going in full swing. The basic infrastructural facilities like roads, electricity, water supply, sewerage etc. are either completed or nearing completion. The administrative offices faculty block and a large number of resident houses have been completed. The administration has shifted to its new building on the campus in January 1990 and started functioning there. Most of the residential quarters are ready for occupation and allotments are likely to be made before the end of the year 1990. The Blocks for the pure sciences and Applied Sciences faculties are ready and already occupied by the faculties concerned. Work in construction of a play-ground along with a 400 metres running track is also going on expeditiously.

IV. Financial Position

a) The estimated expenditure for the year under review i.e. 1989-90 worked out on the plan side Rs. 660.68 lakhs and on the non-plan side Rs. 42.83 lakhs. These amounts are to be met almost entirely from the grants provided by the Government of Goa, with the exception of a small amount to be raised way of fees and other miscellaneous receipts. The actual expenditure incurred during the year amounted to Rs.570.70 lakhs on the plan side and Rs. 31.98 Lakhs on the non-plan side.

ii) Contributory Teachers.

1. Dr. **A.K.** Heblekar M.Sc., Ph. D.,
Principal,
PES College, Ponda gave 39 lectures

2. Shri S.M. Sadique, M.Sc.,
Lecturer
S.P. Chowgule College, Margao gave 36 lectures
3. Shri A.B. Coelho, M.Sc.,
Lecturer,
St. Xavier's College, Mapusa gave 16 lectures.
4. Shri A.F. Barbosa, M.Sc.,
Lecturer,
Dhempe College, Miramar Panaji gave 30 lecturers
5. Shri R. B. Tangsali, M.Sc.,
Lecturer,
Dhempe college, Miramar, Panaji gave 32 lectures

iii) Participation in Seminars, Conferences, Workshops etc.

a) Dr. C. Mande

1. National Seminar on X-ray Spectroscopy and Allied areas held at Srinagar, Kas from October 9-12, 1989.

2. U.G.C. meetings for Synchrotron Radi at Poona, 27th and 28th November 11 and January 21, 1990.

3. U.G.C. meetings for Curriculum Development in Physics at Delhi on 15th and 16th September 1989 and at Pune on 16th-March 1990 end 13th and 14th April 1

4. Dr. Mande gave two invited lectures on X-ray Spectroscopy in the Refresher Course for College teachers, organised by the Academic Staff College of the Poon University on 24th and 25th May, 1991

b) Dr. Uma Subramaniam

1. School on Optoelectronic Materials, Devises, from 28th August to 3rd September 1989 at the Tata Institute of Fundamental Research, Bombay.

2. Orientation Course conducted by the Academic Staff College, Goa University from 3.7.89 to 30.7.1989.

3. DST/Unesco regional workshop on "Low cost microprocessor systems for science education from 28th May to 1st June 1990 at the Indian Institute of Technology, Kanpur.

c) Dr. G.R.Bhat

1. Participated and helped in organising the International Workshop on Mathematics Education arranged under the auspices of the UNESCO in Goa from 1st to 10th

November, 1989, He also delivered tv% lectures on "Computers in Mathematic Education" in the Workshop.

d) Dr. J.A.E.Desai

Participated in the Workshop on Powd Neutron Diffraction Technique in Chemic and Magnetic Crystallography held in1 Bhabha Atomic Research Centre, Bomt from June 26, 1989 to June 30, 1989.

iv) Publications

1. Dr. C. Mande (with N.R. Lokhande & V.B. Sapre) Energy gap and chemical shift of X-ray K absorption discontinuity of arsenic in its compounds. Physica Status solidi (b), 153,p.K35, 1989.
2. Dr. C. Mande (with A.P.Deshpande) A study of manganese oxides by EXAPS spectroscopy. Physica Status Solidi (b) 158, p.737 1990.
3. Dr. C. Mande (with A.V. Pimpale) The universality of the Raman Effect. Physics Education, January-march 1990, p.269.

v) Visitors to the Department:

I) Dr B.A. Desannacharya, Director, Solid State Physics and Spectroscopy Group, BARC, Bomt visited the Department on the 21st and 22nd August 1989. He delivered a lecture on "Neutron Scatter Programme at BARC".

ii) Dr. V. Y. Rajopadhye, Retired Professor of Physics, 1.I.T., Kharagpur visited the Department from 5th to 7th September 1989. He delivered a lecture on "Factorisation in Quantum Mechanical Problems".

iii) Dr. V. G. Bhide, Director Inter University Consortium for DAE facilities of the UGC, visited Department on the 28th September 1989. He delivered a lecture on "New opportunities for yoi scientists in National Laboratories."

iv) Dr. B.D. Padalia, Professor of Physics, Indian Institute of Technology, Bombay visited Department on the 28th and 29th September 1989. He delivered a lecture on "XPS studies of H Temperature Superconductors".

v) Dr. V. B. Sapre, Reader in Physics, Nagpur University visited the Department from 16th to 1 November 1989. He delivered a lecture on "Vacuum Technique and Applications".

vi) Dr. A. V. Pimpale, Department of Physics, Poona University visited the Department from 3rd to January 1990. He delivered a lecture on "Quantum Tunnelling".

v) Visitors to the Department:

i) Dr B.A. Dassanacharya, Director, Solid State Physics and Spectroscopy Croup

vi) Visits Abroad

Dr J.A.E. Desa visited U.K. during the summer vacation of 1990. He visited Reading University and1 Rutherford Appleton Laboratory in May-June 1990.

vii) Research Students.

2. Dr. R.B. Prabhu			2

One student Shri R.B. Tangsali submitted his Ph.D. thesis "Theoretical Investigation into Trans; properties of Mix-Valent Cerium Compounds" in September 1989, working under the guidance of Dr. F Prabhu.

viii) Research Project.

- i) Work on the project "Superconductivity" granted by the U.G.C. is in progress.
- ii) Work on the project "Ionospheric Studies" granted by the Indian Institute of Geomagnetism, Bombay, being carried out.
- iii) The Inter University Consortium of the U.G.C. has granted two research Projects, one to Dr. R. B. Prabhu and the other to Dr. J.A.E. Desa to carry out research work on the Dhruva Reactor at the Atomic Research Centre Trombay.
- iv) In addition to the above sponsored projects, the Department is actively engaged in research on several aspects of condensed matter physics.

ix) Co-curricular activities.

1. Dr. C. Mande gave a talk on the AIR, Panaji on "My second love - painting" on the 4th January 1990
2. Dr. G.R. Bhat gave a talk on "String Theory" on the AIR, Panaji on 3.3.1990.
3. Dr. G.R. Bhat gave a course of 30 lectures on "Numerical Methods and Fortran Programming" in the Department of Chemistry, Goa University.
4. Dr. G. R. Bhat gave a course of 30 lectures on "Computer Graphics" in the Department of Computer Science & Technology Goa University.
5. Dr. C. Mande gave lectures on "The Role of Teachers in Modern India" and on "Science & Society in the different courses conducted by the Academic Staff College, Goa University.

x) Any other details

(i) A winter School in Astronomy and Astrophysics was organised by the Department during period 1st to 10th November 1989 in collaboration with the Tata Institute of Fundamental Research Bombay. This year, for facility of undergraduate students, the Winter School was held in the PES College Ponda, with the cooperation of Principal A.K. Heblekar. Fifteen students from the different Colleges University departments in Goa regularly participated in the Winter School. Six eminent scientists from TIFR, Bombay came to Goa to give lectures in the Winter School. The purpose of the Winter School was to acquaint young science students of Goa with the advancing frontiers of knowledge and to inspire them to take up research careers in this fascinating field.

(ii) A two-week National Workshop on "Neutrons as probes of condensed Matter" was organised by the Department of Physics in collaboration with the Bhabha Atomic Research Centre, Bombay between 20th April and 5th May 1990. The workshop was sponsored and financed by the Inter University

Consortium for DAE facilities of the UGC. The Workshop was attended by 21 participants selected from 150 applicants from all over the country. In addition, 5 M.Phil students of the Department attended 1 lecture courses. The theory lectures were delivered in Goa by Dr. B.A. Dassanacharya, Dr. F Vijayraghavan, Dr. C.L.Thapar and Dr. J.A.E. Desa, while the tutorial were conducted by Dr. S.K. Paranj. Seminar talks were given by Dr. V.G. Bhide, Prof. C. Mande, Dr. R.B. Prabhu, Dr. K.V.S. Rama Rao and Dr D. Dande

After a one-week thorough training on theoretical aspects the participants were taken in a special bus to Bombay, where they worked for one full week at the Dhruva Reactor at Trombay. The participants did number of Experiments with the neutron beams at the reactor under the supervision of the BARC staff, Prabhu and Dr. Mande.

This was the very first workshop of its kind in the country organised with the assistance of the In University Consortium. It can be hoped that now University scientists would be able to make good use of the Dhruva Reactor facility in BARC, as was the objective in organising this National Workshop.

(iii) An educational tour of the M.Sc. Part I students was undertaken to Bangalore from October 17th to October 25th 1989 under the guidance of Shri Efreem D'Sa a research student of the Department a Lecturer at Carmel College, Nuvem. The group of 11 students visited the Indian Institute of Science, Ram Research Institute and other place of scientific interest in Bangalore. Simultaneously, the M.Sc. Part I group of 7 students accompanied by Dr J.A.E.Desai visited the Bhabha Atomic Research Centre, Bombay and other scientific establishments in Bombay from October 17th to October 23rd 1989.

(iv) Sixteen M.Sc. students gave a series of seminar talks on various subjects during the academic year under the auspices of the Raman Society. Besides these talks, Shri S.D.Deshpande, temporary lecturer of the Department also delivered a talk on "X-ray Spectroscopic study of aluminium-manganese alloys in 1 Raman Society.

2.3 DEPARTMENT OF CHEMISTRY

The Department consists of three disciplines, Inorganic, Organic and Physical Chemistry. For 1 Master's degree course the instruction is common for all the branches at the part-I level while 1 instruction in a specialised branch is given in the Second Year Post-graduate degrees are awarded in each of the discipline separately.

(i) Teaching Staff

Dr J.S. Budkuley looked after the department as officiating Head till September 17, 1989. Prof S Paknikar resumed duties as Head of the Department on September 18, 1989 after completing two years National Fellow of UGC and visit to West Germany under INDO-FRG exchange programme.

Following are the details of the regular Faculty members in the Department.

Name	Designation
1. Dr S.K.Paknikar	Professor & Head
2. Dr. V.N. Kamat Dalai	Reader
3. Dr. J.K. Kirtany	Reader
4. Dr. B.D. Desai	Reader
5. Dr. J.B.Fernandes	Lecturer

6. Dr. J.S. Budkuley	Lecturer
7. Dr. S.P. Kamat	Lecturer
8. Dr. K.S. Rane	Lecturer
9. Dr. VP Kamat	Lecturer
10.	Dr. A.V. Salker Lecturer

Dr. Mrs. Suneeta Nair joined the department as Pool Officer CSIR in July 1989. Dr. S.G. Tilve joined the department as Pool officer CSIR in April, 1990.

(ii) Contributory Teachers

During the year, Contributory teaching was also done by the following teachers.

1. (Dr.) N. Pereira, Principal, St. Xavier's College, Mapusa,
2. Prof, M.S. Wadia, Professor and Head, Department of Chemistry, University of Poona, Pune.
3. Dr. John B. Fernandes, Principal, Govt. Arts and Science College, Marcela, Goa.
4. Dr. G.R. Bhat, Department of Physics, Goa University.
5. Shri R.B. Tangsale, Department of Physics, Dhempe College.
6. Shri VS. Dinge, Department of Chemistry, Dhempe College Panaji -

Miss Jivexa Patel submitted her Ph.D. thesis in May 1990. She worked under the guidance of Pro S.K. Paknikar.

(iv) Visitors to the Department

1. Prof. Vasu Dev,
California State Polytechnic
University, POMONA, Calif, U.S.A.
Delivered a talk on "The Chemistry of Cymbopogon terpenes" 29th Nov, 1989.
2. Dr. Alan F Thomas.
Firmenich, Geneva
Switzerland.

Delivered a talk entitled "Chemistry of pinane derivatives and their use in perfumary industry" 28th February, 1990.

3. Dr. T.N. Guru Row,
Indian Institute of Science, Bangalore Delivered a talk on "Structure Determination by x-ray Diffraction" on April 6, 1990.

4. Prof. P A. Vatakenchery,
Cochin University, Cochin Delivered a talk on "How to do Research and survive under Indian conditions", on April 1, 7, 1990.

(v) Visits abroad

Prof. S.K. Paknikar visited W.Germany under Indo-FRG exchange programme sponsored jointly UGC - New Delhi and DADD, W. Germany. He carried out research work at Pharmaceutical University Bonn (June - August 1989). He also visited Switzerland, France and U.K. on invitation from Universities & research organisation for delivering lectures (September 1989)

(vi) Participation in Seminars/Conferences/Workshops

3. M.Sc. students visited the local Biotechnology factories like Arlem Breweries and Cosme Mat Menezes Labs April 1990.

Distinctions

Three students of Marine Biotechnology: Vinita Saraswat Sandhya Tewari and Kshama Chadda w the only students to have passed the joint CSIR-UGC National examination, 1990 from the Goa centre, pursue their doctorate studies.

3.2 DEPARTMENT OF COMPUTER SCIENCE & TECHNOLOGY

Goa University right at its inception identified Computer Science & Technology as one of the thr areas. From the year 1987, a Separate Department of Computer Science and Technology was set-up. begin with, a full-time six semester post-graduate course leading to the degree of Master in Compt Applications (MCA) was started from the academic year 1987-88.

During the year under report 30 students were selected for admission to the MCA course out of eligible candidates. The selection was made through and Entrance Test held on 20-6-89. Finally, only students registered their names for the first semester of the MCA course in addition to 223 and 17 stude who registered for 3 and 5 semester respectively.

The functioning of the Computer Lab installed with a UNIX based system alongwith necess peripherals and PC/XTs and PC/ATs was satisfactory throughout with all three batches of MCA stude working. At times, the system had to be operated on Sundays and holidays for semester VI students v were working on their projects. MMS students were also given the facility of working on PCs on Sund, for a specific period.

CHAPTER - III

AFFILIATED COLLEGES AND INSTITUTIONS RECOGNISED BY THE UNIVERSITY

As stated earlier, the Goa University began functioning w.e.f June, 1985 when the Goa University 1984 came into force in this state.

As on March 31st 1990 there were 26 affiliated colleges and 5 institutions recognised by the University. A list of these colleges and Institutions as on that date appended as Annexure VIII.

A brief report on the activities of various institutions is given in this Chapter.

A - Colleges other than professional

.....ADRIAN DHEMPE COLLEGE OF ARTS & SCIENCE, PANAJI, GOA

The College was established in June, 1962 and was permanently affiliated to the Goa University from 1962-86 in approved subjects leading to B.A. & B.Sc. degrees.

The College is run by the Dempo Charities Trust in a three storied building having 15 lecture halls besides ample space to enable the college to conduct its curricular and extra-curricular activities.

Hostel facilities are also provided by the College separately for boys and girls. During the year under report, the number of male hostalities was 64 and that of female 59.

C-4 NATIONAL INSTITUTE OF OCEANOGRAPHY, **DONA PAULA.**

GENERAL

The year 1989-90 has been another year of successful completion of most of the programmes planned. The seventh plan has come to an end in the year 1989-90. During the course of the Seventh period, CSIR has resolved that CSIR laboratories should make efforts to earn more from outside agencies to meet the R & D expenditure. The extent of external funding has also been considered as a measure of the credibility of the laboratory. In this respect, it is worthwhile to mention that NIO has earned an amount of Rs. 22.92 crores against the CSIR grant of Rs. 24.636 crores during the seventh plan.

During the period under report, the oceanographic studies in the Exclusive Economic Zone (EEZ) is the thrust area in the R&D programmes. Hence, most of the ship time was utilised for the work in the EEZ. This year, efforts were mainly concentrated to cover the EEZ along the east coast of India. Apart from the EEZ thrust area programme, the Institute has continued with the two National programmes, one on the Survey for Polymetallic Nodules (PMM) and other on Antarctic Oceanography.

Under the PMN Project, surveys were carried out in the Central Indian Ocean. The focus during the year was on high resolution exploration in the Pioneer Area to generate data on abundance, grade and bathymetry which would form the basis for the first stage of relinquishing 20% of the pioneer area to International Seabed Authority. Four cruises on the board the chartered vessel NandRachit were undertaken for this purpose. Apart from this, collection of baseline data for the environmental studies was initiated and a cruise on board Sagar Kanya was undertaken for this purpose. A significant addition to exploration capability was the installation of the hydrosweep equipment, a state-of-the-art multibeam sonar mapping system on Sagar Kenya. This equipment will ensure the collection of realtime bathymetry data from the Pioneer Area.

Participation in Antarctic research programme was continued. Two scientists from the Institute participated in 9th Indian Scientific Expedition to Antarctica and one scientist worked at Antarctica during winter.

Three bilateral programmes progressed satisfactorily. Under the Indo-FRG programme on "Quarterly upwelling and climate in Arabian Sea" the particle flux studies were extended to the Bay of Bengal where deepsea sediment trap moorings were deployed. This region is of particular importance because of large river-borne sediment discharge from the Ganges. In addition, both the monsoons play an important role in the oceanic processes which contribute the particles. During the year, two cruises were undertaken for this study on board ORV Sagar Kanya and D.S. Nand Rachit, for the deployment and retrieval of moorings. An Indo-FRG Working Group meeting was held in Bremen in March 1990 to discuss progress and a future direction of the ongoing programme.

Under the Indo-USSR collaborative programme, NIO scientists participated in 4 cruises on board (Sagar Kanya and Soviet research vessels) in the Indian Ocean as part of the Trans-Indian Ocean 1000 km transect studies. The data collected were analysed and detailed upper crust structural maps have been prepared. Under this programme 3 Soviet Scientists visited the Institute during the year. Under the programme on "Air-sea interaction in relation to monsoon dynamics", data collected during 1988 were analysed and modelling studies were carried out.

The Indo-US project on "Bioactive substances from the Indian Ocean" also progressed satisfactorily. During the year, more emphasis was laid on the collection of marine organisms from the intertidal and subtidal regions along the southeast and south west coasts, and Lakshadweep islands. Identification and chemical ecology of the organisms collected have been carried out along with isolation and characterisation of a few compounds. The Indo-US project on "Accelerated corrosion of metals and alloys in the marine environment" initially sanctioned for three years for 1986 to 1989 has been extended for more years. Under this project the effect of crude oil on the rate of corrosion of mild steel was evaluated.

The Institute has undertaken a major programme to assist the Caribbean countries known as Caribbean Oceanographic Exploration (CORE) Project at the initiative of the Commonwealth Soler Council in collaboration with Caribbean Commonwealth and Govt. of India. The objectives of programmes are to (1) enhance the capability of Caribbean countries in investigation, understanding & utilising their living and non-living resources; (2) to train Caribbean Scientists in areas of oceanography (3) to carry out the Oceanographic resources survey in the Caribbean Sea. Under this project, Caribbean scientists were given training at NIO for a period of 3 months from October to December, 1987

During the period under report, the Institute has undertaken 14 new sponsored projects for various agencies like MNGC, NPC, Calcutta Port Trust, etc. The total contract value of these projects is Rs. 5006 lakhs. The cash flow during the year from external sources was Rs. 823.617 lakhs against CSIR grant Rs. 523 lakhs.

The research vessels Gaveshani and Sager Kanya have successfully completed 8 and 3 cruises respectively in the Arabian Sea and Bay of Bengal during the year. Since R.V. Gaveshani was decommissioned in October, 1989, a vessel Nand Rachit was chartered for continuing with ongoing programmes.

About 140 research papers were published during the year. The Institute's regular publications like Mahasagar, Newsletter, collected reprints, etc. were brought out. The journal Mahasagar was discontinued as NIO's publication.

This year again, young scientists Dr. Rajiv Nigam and Dr. V. Purnachandra Rao received the CI Young Scientist award and the UNESCO/ROSTCA award respectively. Eight scientists of the Institute have acquired Ph.D. awards.

The Research Council (RC) had two sittings during the year-Apart from evaluating the ongoing programmes, the RC also finalised the 8th plan programmes during the meetings.

By the end of the year 1990 the Institute will be completing 25 years and therefore, year 1990 is being observed as the Silver Jubilee Year.

The USIS Library, Alliance Francaise and British Council Library also donate books regularly to University Library. This includes more than 200 books specially on Latin American Studies in the collection which are in Spanish.

Working Days.

The Library is kept open for all the days except Sunday, throughout the year. Besides the normal working hours of the Library, the reading rooms are kept open for extended hours so as to facilitate its use by the readers. During the examination days, the Library is kept open even on Sundays and Public Holidays.

The normal timings of the Library are 9.00 a.m. to 6.30 p.m. on week days and 10.00 a.m. to 5.45 p.m. on 1st, 3rd and 5th Saturday of the month.

Readers and use of Library:

The University has 800 registered readers including the staff members and several casual visitors. Inter-Library exchange of books and journals is encouraged and the journals are regularly exchanged with the Library of National Institute of Oceanography.

Teachers and students of the Local Colleges are encouraged to use the University Library and reference and borrowing facility is extended to them. Ph.D. students are issued ten books at a time, a special facility to boost research activity in the University.

The Library continues to receive donation of books/periodicals from a number of persons and institutions.

Other Materials:

Several maps are also collected by the Goa University Library.

Bibliography and Documentation Service:

Bibliographies of reading materials available in the Library were compiled and supplied on demand by staff members on special subjects. A list with the latest additions is circulated to the University Departments. Recently, an exhaustive list of periodicals holdings of the Library has been published.

University Binder:

Bindery unit has been opened to cater to the needs of day to day mending/binding of books and journals.

Classification and Cataloguing:

Books are classified according to Dewey Decimal Classification and subject and author (multiple) catalogues are maintained. There are separate catalogues for the collection. Moreover the library Collection (Books & Journals) is on Computer now. Serious readers/research students can avail themselves of facility of having a print-out of the holdings of the Library: authorwise, subjectwise etc.

B. KONKANI ENCYCLOPAEDIA

The University has undertaken a project preparation of Konkani Encyclopaedia to cater to the need of the Scholars as well as of the common man knowing Konkani. Encyclopaedia information will be classified into various subjects. The Encyclopaedia will contain entries relating to general knowledge with emphasis laid on information regarding the Konkani speaking region, its people, history, geography, art and culture, customs and manners, etc.

The Encyclopaedia will consist of about 3000 pages in three volumes of around 1000 pages each. The source material will be based on information available in English, French, Portuguese, Hindi, Marathi, Kannada, etc. and from specialised works. Original articles on local topics that have not been already dealt with in other works, will be written by scholars conversant with subject. Illustrations will be given, when necessary.

The first volume, containing 1000 entries has already gone in press and the same is expected to be ready soon.

This project will be first of its kind in Konkani and will go a long way in providing valuable information to Konkani readers. Staff:
