PREFACE

It is with great pleasure that I present the twenty first Annual Report of Goa University for the academic year 2005-2006. The annual report is presented in eight parts, Part 1 – University authorities and bodies, Part 2 - University Departments, Centres and Programmes, Part 3 – Achievements by University Faculty, Part 4 - General Administration, Part 5 –Affiliated Colleges, Part 6 - Recognised Institutions and Part 7 – Financial Statement. Part 8 - Appendix contains information on admissions at UG and PG courses for the year 2006-07. This report has been compiled by the University based on the information provided by the various administrative sections, PG departments / centers/ affiliated colleges and recognized institutions.

Goa University has completed twenty-one years since its establishment on 30th June 1985. It is an affiliating University with postgraduate teaching and research carried out on the beautiful campus, spread over 175 hectares. There are now 23 teaching departments, 2 UGC centers; an academic staff college for in service training of teachers, 46 affiliated colleges inclusive of professional and non-professional colleges and 8 recognised institutions. Over 1080 students peruse various posts graduate programmes of which 704 are girl students. About 19630 students are admitted to the various undergraduate programmes. The University was accredited in 2001 by NAAC with a 4 star rating on a 5 point scale.

The teaching and research activities of the University continue to flourish. Eight of the science departments, Physics (2001), Botany (2001), Zoology (2001), Chemistry (2003), Mathematics (2003), Earth Science (2003), Marine Sciences (2003) and Microbiology (2006) are supported by DST under FIST (Funds for Infrastructure in Science and Technology) with grants ranging from Rs. 15 to Rs. 50 lakhs. Four science departments, Chemistry (2002), Physics (2002), Earth Sciences (2002) and Botany (2004) receive research grants under SAP (Special Assistance Programme) of UGC. OSTC (Ocean Science and Technology Cell) attached to the department of Microbiology receives special grants from DOD (Department of Ocean Development) for its research activities. The Department of Earth Science, Govt. of India has established a Centre of Excellence in 'Marine Microbiology' at Goa University in December 2006 with financial support of Rs. 1.26 crores for the first two years. The M.Sc. biotechnology programme is supported by DBT from its inception. There are 27 major research projects from UGC, CSIR, DST, DBT, DOD, ICMR, ICHR etc. supplementing the research activities by about 9 crores of rupees. The University is proud of the research output of the faculty, which includes 6 published books, over 80 conference and about 75 research publications. During the year the departments organized 22 Seminars/Workshops. Twenty nine Ph. D. degrees were awarded during the period.

The Local Area Network (LAN) with 512 kbps bandwidth regularly receives e-journals in the library as part of the Goa University UGC-ERNET agreement of 2002. Goa University has taken the initiative to network twenty two colleges with the university library under the programme 'Goa

University Academic Library Network' (GOALNET). Distance Education, Information and Training Infrastructure (DEITI) was uplinked to satellite 3B in August 2004 and then to 'Edusat satellite'. Since the uplinking, DEITI has been broadcasting one hour programmes to the receiving centers regularly. A certificate course in Portuguese language, interactive programmes for X class students were transmitted from this studio. Third batch of Japanese students completed their one semester programme under Study India Programme (SIP). Online distance education programme in Geographical Information Science-UNIGIS PG diploma programme was launched in 2005. The website www.unigoa.ac.in provides information on the University.

Goa University has signed an MOU with Naval Aircraft Servicing Development organization (NASDO) for INS Hansa, Dabolim for the digitization of Indian Navy Air publications (INAP) of Sea Harrier Aircraft. The work is in progress. Goa University in collaboration with Association of Indian Universities organized West Zone Vice Chancellor's Conference in September 2005. H. E. Shri S. C. Jamir inaugurated the Conference and Hon'ble Chief Minister Shri Pratap Singh Rane was Guest of Honour. The Conference deliberated on "University Autonomy", "Making Indian Education globally competitive", "Vocationalisation of Higher Education", "University High School Education: Link" and other issues. Goa University in association with the Consortium for Educational Communication (CEC) and International Centre, Goa organized PRAKRITI 2005 a film festival on Environment, Development and Human Rights in September 2005. An MOU was signed between Goa University, National Institute of Oceanography and Universite, Paris for research collaboration in 26th Sept. 05.

The eighteenth annual convocation of the University was held on 17th Dec. 05. H. E. Shri S. C. Jamir presided over the function.

The construction of an international student's hostel with the support of UGC is in progress. Work on a new boys hostel and science building supported by the Govt. of Goa will start shortly.

I express my gratitude to H.E. the Governor of Goa and Chancellor of Goa University for his keen interest in the functioning and progress of the University. I am extremely thankful to the State Government for its continued support to the University. I also thank the University Grants Commission for the liberal support under various schemes. My sincere thanks to the members of the Executive Council, Academic Council, Court, Planning Board and other bodies of the University for their Wise Counsel and cooperation. My thanks are also to all teaching, non-teaching staff members and students for making 2005-06 yet another successful year.

INTRODUCTION

As an institution progresses, changes are vital. Goa University has also had a fair share of change and achievements this year - planned in detail are changes that we hope will take us on our way to our goals.

Goa University is the only University in the state of Goa and also one of the renowned centres for higher education in India. The University was established in the year 1985 around the nucleus of Centre for Post Graduate Instruction and Research of the University of Bombay in Goa. Goa University has academic programmes in a wide range of subjects and, options are extended further by the inter-disciplinary nature of courses taught. We are constantly exploring ways to make the curriculum relevant to the world at large by offering courses in Latin American Studies, French, Computer Science and Technology, Business Administration, Marine-Biotechnology etc. PG Diploma and Certificate Courses are also offered with an objective to cater to the requirements of various Industries and Services in Goa and to provide the required manpower.

We proudly present before you the Annual Report for the year 2005-06 which has been inspired by the ideas of our esteemed Vice-Chancellor. He has shown great interest in our endeavour and constantly encouraged us to bring out an Annual Report that is both precise and adequate reflecting the strengths and achievements of Goa University.

The information published in the Annual Report has been edited by the team on the basis of inputs received from the various constituents of the University as per the prescribed format made available for the same. The contents of the Annual Report have been received from the various constituents mostly in the electronic format and the Committee wishes to acknowledge the same. The information which has academic value for the particular stream only has been included, thereby making the Annual Report more academic-information-oriented and also precise in information-reporting. Change has to be constant for bringing out the best and therefore, we look forward to ideas and suggestions from you to improve the publication of Annual Report in the years to come. Please feel free to send your valuable inputs to the Publication Unit.

This Annual Report has been made possible because of the valuable contributions from one and all. The complete gathering and compilation of the material for the Annual Report including the DTP work has been done at Publication Unit, thereby giving adequate support and valuable inputs in bringing out this Annual Report. The cover is designed by the faculty and students of Goa College of Art. The report has been printed at M/s Alto Typesetters, which has been on the dot in publishing the same by the due date. Lastly, the committee would like to thank all those who have directly or indirectly contributed in bringing out this Annual Report.

B. The highlights of major thrust areas of research and achievements of the Department.

The Department of Chemistry conducts research in the following thrust areas.

1. Newer methods of Chemical Synthesis of Inorganic and Organic materials.
2. Solid State Chemistry & Catalysis
3. Electrochemistry
4. Synthesis of Natural Products and Polymers.

During the year 05 – 06, the faculty members published 25 papers in reputed refereed journals including one patent and 58 presentation in various national/international conferences. It is noteworthy that more than 75% of the research work is published in international journals/forums.

Research funding to the department

The research is mainly funded through

1. Sponsored Projects to individual faculty members (~ Rs. 63 lakhs, ongoing inclusive of projects Sanctioned during the current year as given in section D).
- 1). The department is funded by the UGC under the Special Assistance Program (SAP) since 2002 and presently is in the third year of SAP. Total funding for 5 years is 42 lakhs. Major equipment purchased from the grant is X-ray diffractometer.

- 2) The department is also funded by Department of Science & Technology (DST) New Delhi under infrastructure program FIST. Under this program department has already procured Computers worth Rs. 5 lakhs which are installed in a computer lab renovated for the purpose. Also two sophisticated instruments IR/UV-Vis Spectrophotometers worth Rs. 15 lakhs have been installed in the instrumentation room and are currently in use.

(b) **Awards/Honours conferred:**

'Best paper' award for the paper entitled, "Thermal analysis: An important tool to explain enhanced catalytic activity of manganese oxides", Jeanette S. Rebello and Julio B. Fernandes, at a conference on Thermal Analysis (Thermans-06), held at University of Rajasthan, Jaipur, 6th – 8th Feb. 06, was awarded to Jeanette S. Rebello.

'Best Paper' award for the paper entitled, "An approach towards the synthesis of pyrano [2,3-b]quinoline compounds", Sonia G. Naik, C.P. Amonkar and Tilve S.G., at the 2nd International Conference (AOCCB- 06), held at Hyderabad, Jan. 06, was awarded to Sonia G. Naik.

Aditi R. Gandhe was awarded a bronze medal by ISACS-05 at Goa University, 1st – 3rd Dec. 05 for her contributions towards solid-state chemistry.

'Best paper' award for the paper entitled, "Synthesis of catalytically active Fe-doped OMS-2", Jeanette S. Rebello and Julio B. Fernandes, at National conference on Solid State Chemistry and Allied areas (ISCAS-05), held at Goa University, 1st – 3rd Dec. 05, was awarded to Jeanette S. Rebello.

(2) **Fellowship/Visiting Professorship, etc:**

K. S. Rane visited Washington University in St. Louis, U.S.A., Canada and Singapore during the period Apr.- July 06.

B. R. Srinivasan visited University of Kiel, Germany under reinvitation programme of DAAD fellowship during May-June 06.

DST Indo-Portuguese research programme (J. B. Fernandes, P. I.). P.V. Samant (co – PI) visited University of Porto, Portugal during 19th Oct. – 15th Nov. 05.

(c) Any other special achievement by students/staff:

K. S. Rane (i) has been involved in developing strategies for synthesis of metal oxides by novel hydrazine method. (ii) Invited to talk on Visible light sensitive photocatalyst at International Conference, National Institute of Singapore, Singapore, 8th – 10th December 2005 (iii) Invited to talk on Tailoring of Electric and Magnetic materials at 19th Annual National Symposium, Punjab University, Chandigarh, 22nd – 23rd December 2005

B. D. Desai has been investigating newer routes for activation of manganese ores.

A. V. Salker has developed thick film of In, Bi and Pd oxides impregnated in LaCoO₃ for application as carbon monoxide sensors and carried out photocatalytic studies of some metal phthalocyanines and solid solutions of mixed metal oxides.

B. R. Srinivasan has synthesized novel H-bonded cyclic dibromide in an organic diammonium salt and has developed several other compounds having unique H-bonding interactions.

V. M. S. Verenkar has synthesized ultra fine nickel ferrite by autocatalytic combustion of a novel precursor at room temperature.

S.P. Kamat has been involved in developing chiral natural products using novel synthetic routes.

V. P. Kamat has developed new synthetic strategy for total synthesis of the structure proposed for Cresillin-B.

S. G. Tilve has developed convenient synthetic strategies for synthesis of trans-3-Hydroxy-L-Proline, Volatile Streptomyces Lactones and γ -methyl α -(alkylmethylene)- γ -butyrolactones. He has also developed expedient synthesis 2-carboethoxy-4-methyl naphthalenes.

V. S. Nadkarni has synthesized new polymers for solid state nuclear track detection and was granted an Indian patent for an improved process for preparation of carbonates.

J. S. Budkuley has investigated magnetic properties of nanoparticle Mn-Zn ferrite synthesized by novel nitrilotriacetate precursor method.

J. B. Fernandes has developed active catalysts for methylation of phenol and investigated novel carbon supports for OMS-2 and Pt-Ru nanoparticles for electrocatalytic oxidation of methanol in fuel cells. Modified zeolite catalysts have also been developed for selective synthesis of C4 aliphatic amines.

R.N. Shirsat (i) has made ab initio studies and compared it with x-ray crystal structure of 4-1-(4-Chloro-phenylamino)-ethyl]-5-methyl-2-p-tolyl-2, 4-dihydro-pyrazol-3-one. (ii) Attended Mid-Year Meeting at Indian Academy of Sciences, Bangalore on 7th – 9th 05. - B. Highlights of major thrust areas of research and achievements of the Department.

The department is actively engaged in research in the following fields:

Study of lower crustal and mantle nodules in Deccan basalts with a view to understand the composition, lithological variation and P-T regimes of the deep crust beneath western India.

Statistical modeling and evaluation of mining property from North Goa.

Ground water model studies involving sea water intrusions in the coastal aquifers and mining impacts on ground water environment . Investigations on rural drinking water supplies, resource augmentation, water conservation and artificial recharge. Overall ground water study and its impacts on the sustenance of life in the coastal and mining zones of India.

Geochemistry of xenoliths in kimberlites from south India to understand the crustal evolution. Sedimentologic, stratigraphy and paleogeographic reconstruction of carbonate sequences of Western India. Sedimentary facies analysis of Kaladgi and Cuddapah Basins, Application of RS-GIS integrated approach in Mining and Environment Geology.

Curriculum: In addition to the routine courses, the Department has designed and included in M. Sc. Curriculum special courses in Mining Geology (Goa specific), Petroleum Geology, Ground Water Geology, Environmental Geology, GIS and Remote Sensing with a view to catering to the societal needs and widening the scope of employment.

Research: The Department has active research collaborations with universities/institutes in India and abroad University of Salzburg, Austria, National Laboratory of Civil Engineering Lisboa, Portugal and Birkbeck College, University of London, England.

The instrumental facility for research such as sophisticated microscopes, computers and software have been purchased by the department through funding from sponsored project

Consultancy: In addition the Department has been continuously generating additional funding for research and development through sponsored consultancy projects (Rs.10,25,000/- mining industries).

Museum: The Department can boast of an aesthetically designed Earth Science (Geology) Museum, which serves as an in-house Field Laboratory of Geology for the M. Sc. teaching and Research. It houses a systematically displayed large collection (over 3000 specimens) of rocks, minerals, ores and fossils depicting the various aspects of geology of the peninsular India. In addition it houses an excellent representative collection of hermatypic corals from the Lakshadweep archipelago the northernmost atolls in the Indian Ocean. The collection includes some species hitherto not reported from south Asia. The museum is a collective effort of extensive field work by the faculty and the students of the department over the last decade. It is visited regularly by school, college students and visiting dignitaries. It is the only Geology museum in the state and is considered the best along the coastal stretch south of Bombay.

Placement: Ninety five percent (95%) of the alumni of the Department are gainfully employed every year. Of which about 60% overseas in firms engaged in Petroleum exploration, others within the country in the mining and related industries and the remaining by their own choice in academic institutions.

B. Highlights of Major Thrust Areas of Research and Achievements of the Department.

(Physics) The thermoelectric power (TEP) measurements have been carried out to investigate the changes in the electronic structure associated with the different intermartensitic and martensitic transitions in $\text{Ni}_{2-x}\text{Mn}_{1-x}\text{Ga}$ ($0 \leq x \leq 0.19$). The samples have been characterized by XRD, a.c. magnetic susceptibility, resistivity and EDAX measurements. The correlation between the TEP and the microstructural changes sensitive to the increasing Ni content in $\text{Ni}_{2-x}\text{Mn}_{1-x}\text{Ga}$ has been investigated. The changes in the density of states as reflected in the temperature variation of the TEP are consistent with the conclusions drawn from the Jahn-Teller mechanism of lattice distortion.

Furthermore, the local atomic structure in these alloys was explored using Mn and Ga K-edge Extended X-ray Absorption Fine Structure (EXAFS) measurement. In order to study the atomic rearrangements that occur upon martensitic transformation, room temperature and low temperature EXAFS were recorded. The changes occurring in the L2₁ unit cell and the bond lengths obtained from the analysis enables us to determine the modulation amplitudes over which the constituent atoms move giving rise to shuffling of the atomic planes in the modulated structure. The EXAFS analyses also suggest the changes in hybridization of Ga-p and Ni-d orbitals associated with the local symmetry breaking upon undergoing martensitic transition.

Silica glass micro-spheres in the range 90 μm to 106 μm have been compacted according to a particular method evolved in a collaborative effort with scientists from Portugal through a DST sponsored international programme. Wet chemical methods have been employed in coating the micro-spheres and compacts of these made in the same way as compacts of the un-coated spheres. A semi-conductor, cadmium sulphide, and two insulators - ferric oxide and cobalt oxide were chosen as suitable coating materials for their ready availability and ease of dissolving in solution. Characterizations of the coated compacts of micro-spheres by X-ray diffraction, Fourier Transform Infra-red Spectroscopy, UV-Visible Spectroscopy were made. The X-ray data of the CdS coated samples confirmed the similarity of structures of the coated material and starting compound while this was not the case with the ferric and cobalt oxide coatings. The I. R. data show the presence of OH functional groups in all samples and enough evidence that there was little or no similarity of absorption features between starting compounds and the materials coating the spheres. The UV-Visible spectroscopic data display distinct steps in the absorption spectra at different wavelength regions, which are not present in the starting compounds.

Quantum Phase Transitions (QPTs), have attracted much attention in recent years. These transitions occur at very low temperatures, where the quantum ground state of a system undergoes some fundamental change. This change is not due to the temperature but some parameter in the Hamiltonian of the system. The realization of trapped Bose-Einstein condensates of ultracold atoms in optical lattices has opened up the possibility of obtaining various quantum phases in a controlled manner. We study the ground state phasediagram of a mixture of two species of bosonic atoms in one-dimensional optical lattice, which can be described by two species Bose-Hubbard model. Keeping only the on-site interactions between a given species as

well as between the two different species, we have obtained the complete phase diagram using the finite-size density matrix renormalization group (FSDMRG). The phase diagram consists of superfluid(SF), Mott insulator(MI) and phase separated phases. The experimental verifications of our results will provide important insights into quantum phase transitions.

High performances nanoparticle $Mn_xZn_{1-x}Fe_2O_4$ with $x=0.35;0.4;0.45;0.5;0.55;0.6;0.65$ were synthesized using Novel technique. These materials were characterized by carrying out measurements with the help of XRD; IR; and EDAX. Micrographs of the samples were obtained on Scanning electron Microscope (SEM), Transmission Electron Microscope (TEM); Scanning Probe Microscope (SPM) from TIFR Mumbai, IIT Powai, and NT MDT Russia respectively to confirm formation of nano sized samples. Permeability and dielectric constant measurements on the bulk samples obtained from nano grains were also carried out on HP LCR Q meter. The high values of permeability low loss tangent and resistivity values confirmed formation of high performances magnetic material Magnetic measurements were made on VSM at IIT Kanpur and TIFR Mumbai. These measurements indicated that the nano samples exhibited super paramagnetism. Some of the bulk materials prepared from nanoparticle Mn-Zn ferrites found to be nonmagnetic showed nanomagnetic to magnetic phase transitions on sintering at higher temperatures. This phenomenon is a strange and new one, not reported by researchers working in the field and needs to be investigated by employing XRD, IR, NEUTRON diffraction, SQUID and VSM measurements. These materials exhibit a number of fascinating properties which needs a through investigation for understand magnetism in nanomaterials and in bulk magnetic materials prepared from nano materials.

- B. The highlights of major thrust areas of research and achievements of the Department.

Thrust areas

Study of agarases and other commercially important enzymes from marine bacteria.

Biotechnological degradation of oil spills and tar balls by means of selective marine microbial consortia developed for marine pollution control.

Establishment of methods to study the risk assessment of recombinant DNA in controlled marine conditions.

Biotechnologically important Proteases and xylanases from coastal and deep sea bacterial and fungal isolates.

Extraction of toxins and lectins from marine organisms.

Alkaloids of medicinal value from plants.

RAPD of Sea weeds.

Study of Sulphur reducing bacteria from hypersaline environment.

Bioactive compounds from salterns.

Lipases and Proteases from Thraustochytrids.

Achievements

Basic animal cell culture facility has been set up. In an attempt to utilize bioactive substances from marine organisms, research has been attempted in the fields of marine toxins and lectins to probe for applications in the medical/diagnostic industry. The source selected to screen for lectins is marine algae, which are abundantly found along the coast of Goa. Study is geared towards identifying an agglutinant for Blood group RhO, which has no specific antibody for detection.

Proteases of biotechnological significance have been obtained from deep-sea fungal as well as bacterial isolates. Significant leads have been obtained on separation of multiple xylanases produced by *Aspergillus Niger* from mangrove area.

Studies on multiple polysaccharide degrading marine bacteria with emphasis on enzymes involved agarase & alginate biodegradation are being carried out. Molecular Phylogenetics of bacteria & RAPD studies in seaweeds is also being carried out.

Research in Hypersaline habitats like marine salterns, probing for bioactive compounds from d halotolerant & halophilic aerobes and bioremediation of heavy metals using SRBS are ongoing.

Neville Menezes Gama and Preetesh Chatim of the 05 - 07 Batch of MBA spent one Semester at University of Applied Sciences at Ingolstadt in Germany on exchange under DAAD funding.

The Department started a collaborative program with seven units of GSIA (Goa Small Industries Association) in implementing Lean Manufacturing in the Units. Two students each are deputed to these Units every Thursday to help the Units implement Lean Manufacturing. Tejashree Colvalcar, Lecturer, co-ordinates the Project.

The Department took initiative in using "Moodle" as an Intranet / Internet based Course Management Platform for managing courses. The Course Management Software helps in extending learning beyond classroom and in archiving the learning. M. Chakraborty, Head, Computer Centre and Anselmo A. T. H. Rosa, Programmer helped in implementing the software.

The Department implemented wireless connectivity for Intranet and Internet access in the Department building. Most of the students use laptops regularly in the classroom for enhanced learning.

The Department launched a new curriculum for MBA making it more industry relevant with increased emphasis on Internships, Executive Interactions and Soft Skills Development.

The students had academic interactions with MBA students from Himachal University and D C School of Management, Kerala.

The Officers of Indian Navy who were attending the MBA (Logistics Management) Program of Goa University at INS Hamla in Mumbai had joint sessions for one week at Department of Management Studies at Goa University.

The 04 - 06 Batch of MBA organized an alumni meet of the Department at International Centre Goa.

2.7 INNOVATIVE PROGRAMMES

(i) Research & Development and Resources Mobilisation Cell (RDRM):

The research in the University is funded through two sources. The University received funds for Post-Graduate and Doctoral instruction from the Ministry of Education, State Government of Goa. The second major source of funding comes from the research projects.

Research and Development projects and Consultancies are handled by the faculty members of Goa University funded by various organizations such as Council of Scientific and Industrial Research (CSIR), Department of Science & Technology (DST), University Grants Commission (UGC), Department of Science & Development (DOD), Atomic Energy Regulatory Board (AERB), Department of Biotechnology (DBT), All India Council for Technical Education (AICTE), Goa State of Council of Science (GSCST), Department of Environment and Forest Wild Life (DOENF), Control Net India Pvt. Ltd. (CIPL), Indian Council of Medical Research (ICMR), CIBA, South Asian Network for Development and Environmental Economics (SANDEE) and other public foundations of which 84 are ongoing and are at various stages.

In the year 05-06 alone - 26 projects were sanctioned out of which 4 are consultancy projects sectioned to the Departments of Botany, Chemistry, Microbiology, Physics. The total grants in this year was Rs. 1,35, 71, 650/- funded by CSIR, DST, DOD, DBT, DOD, AICTE, UGC, DBT, AERB, TERI, IUC, Inter GIS Asia Link Programme, GSCST, GSWC, etc.

(ii) Remote Sensing Laboratory (RSL): A Remote sensing Laboratory has been established with financial assistance from Indian Space Research Organisation (ISRO). The facilities of the laboratory include hardware consisting of sever and four nodes and software necessary for image processing. Image Processing packages such as ENVI and ERDAS imagine have been procured. In addition, conventional equipments such as mirror stereoscopes, pocket stereoscopes and light tables have also been procured. An interdisciplinary course has been introduced across different faculties where remote sensing technique has application. This laboratory provides hands on training to students who opt for interdisciplinary course on remote sensing and research and thus cater to the country's need for trained manpower in this field

(iii) Ocean Science and Technology Cell (OSTC): Department of Ocean Development established an Ocean Science and Technology Cell (OSTC) at Goa University in Marine Microbiology in Jan. 1998. The cell reviews, recommends and monitors the progress of research projects and functions under the guidance of the Management Board.

This OSTC is in its ninth year and has so far recommended and monitored ten projects, seven of which have completed their tenure and four are initiated in Apr. 05. During the period under report the following activities were held:

I. Management Board Meeting:

Fifteenth Management Board meeting, was held on 6th Oct. 05

II. Workshops (Ongoing and new project proposal):

A. **Ongoing:** The status of two ongoing projects funded by DOD was reviewed on presentation by respective PIs on 6th Oct. 05.

B. **New Research Project proposals:** Four new proposals were presented by respective P.Is on 6th Oct., 05.

III. Sanction of new projects:

Two new projects were sanctioned:

(i) Molecular Biology of marine cyanobacteria with reference to taxonomy and establishment of Molecular data bank- Bharathidasan University.

(j) Impact of Anthropogenic input on bacteria and fungi in the innershelf of Bay of Bengal off Chennai, Tamil Nadu- University of Madras.

Two Manpower Development Projects were sanctioned by DOD during this period.

(a) Biodiversity and bioprospecting of bacteria associated with sand dune a unique marine ecosystem-Goa University

(b) Marine biodiversity and ecosystem functioning-N.I.O., Goa

V. Steering Committee meeting:

The fourth Steering Committee meeting of all OSTCs was held on 12th June 05 at Chennai, which was chaired by Harsh Gupta, Secretary of DOD and attended by all the Vice Chairmans and RCs.

The fifth Steering Committee meeting of all OSTCs was held on 27th Feb. 06 at Annamalai University, Chidambaram and was chaired by the new Secretary P. S. Goel.

VI. Report on National programme on Antarctic and Marine Microbiology:

The Research Coordinator, OSTC, member of expert group constituted by DOD, participated in the meeting held at Annamalai University on 13th June, 05 the report on the future thrust areas of Antarctic and Marine Microbiology was discussed and finalized for submission to DOD.

(iv) Distance Education, Information & Training Infrastructure (DEITI).

DEITI produced number of educational programmes on various subjects for the benefit of academic community. With an objective of educating people on distance education mode, all those programmes were telecast through satellite uplink facility to 22 Study Centres located at various Colleges and Higher Secondary Schools spread across the state of Goa. The DEITI has a professional studio with state of art digital audio and video production facilities and a satellite transmitter for transmitting the educational programmes through satellite.

The DEITI has successfully completed a project of conducting an in-service training programme for more than 2000 primary school teachers of Goa by utilizing the facilities of distance education mode available with DEITI. All the trainees were sitting in batches at 22 various study centres and attended the training conducted by the resource person at the DEITI studio. The project was sponsored by the Education Department, Govt of Goa, under the scheme of Goa Sarva Shiksha Abhiyan (GSSA). On behalf of Goa Education Development Corporation (GEDC), the DEITI has recorded and produced 25 modules of course materials on various subjects for GCET in Goa for the benefit of the students appearing for the test. A number of public awareness programmes have been produced for Goa State Aids Control Society (GSACS), which will be telecast in due course of time.

PART 4: GENERAL ADMINISTRATION

- 4.1 General Information:** The University has been able to take up construction activity for various works since funds were made available. Major projects undertaken during current financial year are as follows"

1. Phase - II of New Examinations Building
2. Phase - II of University Science Instrumentation Centre

- 4.2 Computerisation and University IT Infrastructure on the campus:** During the year 2005-06, although there was not much up gradation of IT infrastructure on the campus but extensive planning was done for future expansion & up gradation. Based on the University's proposal, an amount of Rs. 20.00 lakhs was sanctioned by the UGC for the purpose of implementation of wireless network on the campus, purchase of higher end servers and development of application software under the scheme of Up-gradation of Computer Centre. The two servers are already procured and installed. The classrooms and office of the department of Management Studies are connected through wireless technology with client authentication managed from a single point at the Computer Center. The rest of the up-gradation/implementation is in progress in a phased manner.

A courseware called "*Moodle Modular Object-Oriented Dynamic Learning Environment*" has been installed on a network server which is accessed by the teachers & students on the net. Moodle is a course management system (CMS) - a free, Open Source software package designed to help teachers create effective online learning Material. Moodle has many features expected from an e-learning platform including forums, content managing (Resources), Quizzes with different kinds of questions and several activity modules. Moodle also has several contributed modules, including WebQuest and the Document Management System.

The Computer Centre, being the central computing facility under UGC scheme, had extended all kinds of IT related assistance to the administration, students, teachers and research scholars on the campus. The Computer Centre had processed the results of various examinations of the University. The development of a complete software to computerize the entire university examinations system integrating the students enrolment is in progress by a private party under the supervision of the Computer Centre.

- 4.3 Conduct of Examination:** The University has conducted Examinations in 20 Bachelor's Degree Programmes 48 Master Degree programmes and 11 Post Graduate Diploma Programmes during the year 2005-2006. Altogether 5165 students appeared for these Examination out of which 4452 passed.

The University awarded 27 Ph. D. Degree in different subjects during the academic year 05 - 06.

- 4.4 Library:.** Goa University Library and Information Resource Centre of Goa University is in the 20th year. A library conceived in the year 1965 as a part of Post Graduate Centre of Bombay University then called CPIR with its modest collection has grown into a well-developed Goa University Library of today over the years. Presently its collection has reached to 113543 with the addition of 4073 books for the year 2005-2006. The library has been designated as an U.N. Depository center and it is receiving documents and United Nation's publications since 1996. The Goa University library subscribes 152 foreign journals and 197 Indian journals apart from the journals received on gratis. The other activities of the library are as follows:

DIGITAL INFORMATION SERVICES

The library also offers access to general reference materials like the Encyclopedia Britannica and the Encyclopedia of Science and Technology, The World Book Encyclopedia, The Oxford English Dictionary and the Manorama Yearbook. The library also holds in its digital collections the INFLIBNET's COPSAT database, through which the abstracts of Science and Technology journals can be searched.

4.8 U. G. C. Academic Staff College: The Academic Staff Orientation Scheme is an outcome of NPE (1986). The NPE, in its programme of action, makes a pointed reference to the crucial link between teacher motivation and quality of education. Teachers, as we know, occupy a key position in the education system. The quality, competence and character of teachers, are of utmost importance. They influence the standard of education and thus contribute to national development. The teachers should function as effective instruments of development and social change.

The UGC-ASC came into being with an overall objective of acting as an agency to bring about changes and development in education. It is meant to involve itself in the improvement in the Management of Higher Education, and to bring about a closer linkage between society and Higher Education through meaningful study and research.

The UGC-ASC at Goa University came into existence in February 1988. It has been conducting Orientation Courses from its inception. In addition to Orientation and Refresher Courses, the UGC-ASC has been organizing Seminars / Conferences and other academic activities regularly.

In keeping with the recent advances in Information Technology, the UGC has given a major thrust to IT and its applications. A Computer Lab has been set up with special grants from the UGC. Participants are given basic training along with hands-on experience with Computers. They are also helped in exploiting the informative resources on Internet and in the use of other technologies. Refresher Course participants are trained to use software packages pertaining to their particular disciplines.

So far we have completed 69 Orientation Programmes and 137 Refresher Courses, covering 2347 and 3881 participants respectively. During the year 2005-06 the UGC-ASC conducted 1 Orientation Programme and 7 Refresher Courses in the following subjects: English, Commerce, Computer Sciences, Chemistry, Marathi, Physics, and Environmental Sciences.

D. The highlights of major thrust areas of research and achievements of the College.

The Medical Council of India inspected Goa Medical College in Jan. 06 and approved the increased intake of M.B.B.S. seats from 70 to 100 for the academic year 06 - 07. The official permission was granted by the Ministry of Health and Family Welfare, New Delhi in June 05. Goa University has also granted affiliation for the increased intake of M.B.B.S seats.

Department Of Anaesthesiology

1. Study of effects of Neostigmine on intrathecal Bupivacine analgesic.
2. A comparison of inhalational induction with Sevoflurane and Halothane in paediatric patient premedicated with Midazolam.
3. A comparison of analgesic efficacy between intrathecal Bupivacaine versus Bupivacaine Midazolam versus Bupivacaine, Midazolam, Buprinorphine.
4. Prevention of spinal hypotension following spinal anaesthesia in LSCS patients comparison between preloading with crystalloid v/s 6 mg IV ephedrine + 24 mg in infusion versus 30 mg ephedrine infusion in RL.
5. A comparison of postoperative analgesic for spinal (intrathecal) Bupivacaine & Midazolam and Bupivacaine Fentanyl for LSCS.
6. A comparison between Neostigmine, Midazolam and plain local anesthetic solution for Brachial plexus block.
7. Preincision scalp infiltration of 0.25% Bupivacaine v/s Normal saline for craniotomy for post-operative and intraoperative analgesia.

Department of Biochemistry

Evaluation of Zinc concentrations and antioxidant status in liver disorders.

Evaluation of antioxidant status in risk factor cases.

Department of TB & Chest

The Department besides being involved in research pertaining to publishing of thesis is also involved in other Clinical Research & Publications. Clinical activities include indoor, outdoor & emergency patient care in the speciality and active involvement in implementation of revised National TB control Programme and its training and advocacy.

Department of Dermatology, Venereology & Leprology

1. Role of low Molecular Weight heparin in Lichen Planus is being studied.
2. Adverse Cutaneous Drug Reaction.
3. Cutaneous lesions in Renal disorders.
4. Sentinel survey of non-linked anonymous HIV testing.
5. Programme for HIV awareness For Medical Doctors, Nurses, Social Workers & Lab Technicians.

Department of Microbiology

Apart from teaching activities, the Department is involved in the routine diagnostic bench work and various National Programmes like HIV Surveillance and Sentinel Surveillance, Revised National Tuberculosis Control Programme (RNTCP), Integrated Disease Surveillance Programme (IDSP), External Quality Assurance (EQAS) for CD4 Testing and External Quality Control for VDRL Test for syphilis.

The Departmental staff is involved in AIDS awareness programmes being conducted periodically for medical, paramedical and non-medical persons, within and outside this Institution. The department also provides free testing facilities for CD4 counts for HIV positive individuals as a part of ART (Antiretroviral therapy) programme in collaboration with Goa State AIDS Control Society (GSACS) and National AIDS Control Organization (NACO). Serological testing facilities for exotic viral diseases, such as Dengue and other bacterial infections like Leptospirosis are available at the Regional Laboratory, which has been recently established, with the support from DGHS, New Delhi. The Department is actively participating in the RNTCP (Revised National Tuberculosis Control Programme) and has one Centre attached to it.

Department of Obstetrics & Gynaecology

Department is working in the area of HIV in Pregnancy, Review of twin pregnancy, Outcome of spontaneous/induced labour in the primigravidas, Review of Accidental haemorrhage, Fibroid in Pregnancy, Study of Obstetrics and Neonatal outcome in pregnancy complicated by diabetes Mellitus, Hysteroscopy v/s Hysterosalpinography in the evaluation of infertility, Doppler study and outcome in IUGR.

Various research projects are presently being carried out in the HRCC:

- (i) Implanon – as a family planning method
- (ii) Medical methods of safe abortion
- (iii) Magnesium Sulphate in eclampsia

Department Of Pathology

Study of Salivary Gland Tumours in Goa

Tumour and Tumour like lesions of the Testis and Para Testis

FNAC of Intra Abdominal Masses

Incidence, nature and pattern of Tumours of Uterus

Correlation of endoscopic FNAC and Histopathology of lesions of Upper GIT

Department of Pharmacology

Adverse Drug Reactions in Psychiatry.

Calcium channel blockers and pain

Price difference of antibiotics and differences in cost of therapy.

Comparison of effects of ACE inhibitors and calcium channel blockers in hypertensive patients

Department of Preventive & Social Medicine

The Department in collaboration with International Labour Organisation and Goa State AIDS Control Society conducted the Research Project Title "Knowledge, Attitudes, Behaviour and practices among workers in the formal and informal sectors in Goa". The Department was involved in Analysis, Data interpretation and report writing. At the end of the project, four research reports were published covering the different sectors. The findings highlighted significantly low level of knowledge, negative attitudes and high level of sexual risk behaviour among the workers of the unorganized sector compared to workers in the organized and the hospitality sectors. Also workers reported a significantly high level of discriminatory attitude across all the sectors.

A cross-sectional study design was employed to assess the implementation and impact of Behaviour Change Communication Strategy under Anti-Malaria Month in Goa launched by VBDCP in the months of June to Aug. 05. The villages of Cumbarjua, Gaundalim, Bhati and Kumbari were the study areas.

The level of awareness about malaria was high and fever was identified as the primary symptom of Malaria. The knowledge of breeding places of mosquito was high but the knowledge level of prevention of mosquito breeding was low. The availability of larvivorous fish was unknown to many.

The knowledge of insecticide treated bed nets was non-existent. The level of knowledge of complete cure of malaria was very low. The overall coverage of programme strategy was inadequate. A negligible amount of study population adopted preventive measures against malaria.

Department of Surgery

1. Clinical Study of Adult Intestinal Obstruction.
2. Day Care Surgery.
3. Comparison of three Drug AKT v/s DOTS in TB Lymphadenitis.
4. Clinicopathological study of Ca Bladder.
5. Blunt Chest Trauma: Clinico pathological Study.
6. Clinico Path study & Radiological correlation of Thyroid swellings.
7. A Clinical Study of A. V. Fistulae Created in C. R. F. Patients for the purpose of Haemodialysis Access, in Goa Medical College.
8. Clinico pathological Study of Locally Advanced Breast Carcinoma.
9. Laparoscopic Totally extra peritoneal approach for inguinal hernia V/s open Surgery a Clinical Study.
10. Clinicopathological Study of Oral Malignancies.
11. Clinicopathological Study of Perforated Peptic Ulcers.

Department of Orthopaedics:

1. Total joint replacements (Knee & Hip)

Research Projects undertaken:

1. Assessment of Therapeutic Efficacy of Chloroquine for Uncomplicated Falciparum Malaria in Goa and impact of Sulfadoxine-pyrimethamine introduction on *P. falciparum* incidence in Panaji
2. Distribution and breeding behaviour of *Aedes aegypti* and *Aedes albopictus* in Goa
3. Advocacy of Urban Malaria Control in Goa-Geographical reconnaissance of breeding habitats of vectors of malaria and other mosquito borne diseases in Panaji, Goa.
4. Monitoring of National Vector Borne Disease Programme Implementation in Goa
5. Susceptibility of *An. stephensi* to commonly used insecticides (Contd.)
6. Field evaluation of rapid diagnostic kit-*Para bank* for malaria detection in the blood bank samples.
7. Estimation of Malaria Disease Burden in Jharkhand

1. Trainings Organized/Imparted:

1. Basic Bio-statistics to Ph.D. students
2. Summer training to 7 B.Sc. 2nd year biotechnology students
3. Summer training to 2 M.Sc. Microbiology students from Goa University,
4. Scouts and Guides Students of Kendriya Vidyalaya, INS Mandovi, Goa
5. NVBDCP New Delhi sponsored Training programmes for 50 Medical officers from all over Goa.

2. Scientific meetings and Conferences attended:

Ashwani Kumar (i) Attended International Conference on Malaria held in Delhi from 4th – 6th Nov. 05 and presented paper entitled Estimation of malaria burden: some prickly issues and opportunities. (ii) Invited as expert by the National Vector Borne Disease Control Programme in National Consultation Workshop on Vector Borne Diseases held in New Delhi on 20th Mar. 06. (iii) Invited to attend and make presentation in National Consultation meeting on Estimation of malaria burden in India held in New Delhi on 29th and 30th Mar. 06. (iv) Attended advocacy workshop on vector borne diseases and delivered lecture on management of vector borne diseases in a meeting organized by Municipal Corporation of Delhi on 31st Mar. 06. (v) Attended an International consultation meeting on Malaria in pregnancy in India held in New Delhi on 9th and 10th Apr. 06.

D. The highlights of major thrust areas of research and achievements of the Institution.

National Centre for Antarctic & Ocean Research (NCAOR) has been established as an autonomous society of the Ministry of Ocean Development, to consolidate the gains accrued from the Antarctic expeditions and to stimulate research in the frontier areas of polar science and Southern Ocean oceanography with the following aims and objectives:

- Undertake, aid, promote, guide and co-ordinate scientific research in the fields of polar science and Southern Ocean Oceanography.
- Serve as a nodal agency responsible for the overall coordination and implementation of the Indian Antarctic Programme.
- Establish and maintain research base in Antarctica and provide all operational and logistic support.
- Encourage multi-disciplinary and multi-institutional research both at National and International levels, especially in the frontier areas of science, which are emerging and have potential applications.
- Devise, formulate and initiate programs, which will create knowledge base for future commercial and thematic interests of India in Antarctica, Arctic and the Southern Ocean.
- Effectively interact and liaison with SCAR, COMNAP, SCALOP and other international bodies in order to keep the Indian Antarctic Program abreast with international developments and to ensure a perceptible presence of India in the global frame work of nations in Antarctica.
- Extend a singular research laboratory setup with such facilities which are of specialized nature or otherwise not easily accessible.
- Develop predictive models for dynamic processes controlled and driven by Antarctica and the surrounding oceans.
- Co-ordinate, address and monitor all environmental issues arising out of the Environmental Protocol.
- Develop a complete database inventory and repository (National Antarctic Data Centre) for Antarctic and Arctic Science and logistics including a polar museum and a library.
- Provide a fertile platform to generate specialised human resource capabilities for polar science and logistics through training, fellowships, awards, workshops, publications, exchange of scientists etc. both at national and international levels.
- Cruise planning and management of the oceanographic research vessels engaged by the Ministry of Ocean Development and the NCAOR. Take up scientific and technological projects of the Ministry of Ocean Development when entrusted

F. Achievements:

1. Launched the Silver Jubilee Expedition to Antarctica.
2. Launched a special expedition to Larsemann Hills, Antarctica (to the proposed new Indian research station) and Southern Ocean.
3. Organized an international seminar on Earth Science of East Antarctica, jointly with the Geological Survey of India.
4. Took active part in the international activities pertaining to Antarctica and represented the country at ATCM and International Polar Year (IPY) fora.
5. Submitted the draft technical report on the legal continental shelf of India to the Ministry of Earth Sciences.
6. Organised two workshops on the delineation of the outer limits of the Continental Shelf and imparted training to scientists from Sri Lanka and Myanmar.
7. Major dry-docking / retrofit of ORV Sagar Kanya at resulted in vessel modernization.
8. Deep-sea topographic surveys were conducted in Andaman and Nicobar region.
9. A state-of-the art ice core laboratory has been established at NCAOR
10. Carried out the ice core processing and analysis on the cores collected during the 15th and 22nd Indian Antarctic Expeditions.
11. India became an active member of International Trans Antarctic Scientific Expedition (ITASE) and a NCAOR scientist has designated as the national representative of ITASE.

G. Any other information:

(a) Awards/ Honours conferred:

Dhananjai Pandey was awarded Young Scientist Award by the Ministry of Ocean during the Foundation Day celebrations of the Ministry.

(c) Any other achievement by student/ staff:

Book published: Rajan, S., and Pandey, P. C. (Eds.), 2005, *Antarctic Geosciences, Ocean –Atmosphere interaction and Paleo-climatology*: A collection of peer-reviewed papers presented at the National Seminar on "Antarctic Geosciences, Ocean-Atmosphere interaction and paleoclimatology" organised by NCAOR and the Geological Society of India, during November 2003.

A paper published by Dr. Raja Kumar figures among the top 10 downloaded papers in 2005 in oxicological and Environmental Chemistry.

- D. The highlights of major thrust areas of research and achievements of the Institution.

This Institute carried out survey along the central west coast of India covering North Kerala, Karnataka, Goa and South Maharashtra (Lat. 11°N - 17°N) deploying two survey vessels viz. FV Matsy Vishwa and MFV Sagarika.

Demersal trawl, Mid-water trawl and experimental Trap fishing was carried out for Assessment and Monitoring of fishery resources.

Training provided to other organizations during 2005-2006:

Apart from the regular in-vessel training given to CIFNET trainees, Marine Biology student of Karnataka University, Karwar given a day training onboard MFV Matsya Vishwa.

Projects running under FSI Goa Base:

Investigation in Marine Fish Biodiversity in the Indian EZ in collaboration with Ministry of Environment and Forest

Assessment & Revalidation of demersal Fishery resources with particular reference to Penaeid prawns of Goa Coast in collaboration with N.I.O.

Strengthening of database and information networking for fisheries sector. Ministry of Agriculture sponsored project.

Workshop conducted during 2005-06:

Workshop conducted on "Marine Fishery Resources and Exploitation along Goa Coast" at Brittona, Panjim, Goa on 21st Feb. 06.

Training – cum workshop on "Strengthening of data collection and Fish Taxonomy" conducted at Fisheries Training Centre, Douiji, Goa on 7th & 8th Mar. 06.
